timi.

Your snowbird season in Mexico

OFFLINE CHECKLIST / 08 SEP 2026

For US- or Canadian-plated vehicles. Check each item before leaving.

SEASON DATES

- [ ] Write down departure, arrival and planned return. Include driving days as well as the stay at your destination.
- [ ] Compare the total for the policy durations you need. A long policy does not cost the one-day price multiplied by every day.
- [ ] Confirm stay limits, territory, vehicle use and eligibility for your visitor or resident status.
- [ ] Check insurance, immigration and vehicle-permit dates separately. Extending one does not automatically extend the others.

DOCUMENTS AND VEHICLE

- [ ] Carry passport, driver license, registration or title, and any permissions needed when the vehicle is not in your name.
- [ ] Confirm immigration requirements with INM and the vehicle permit for your route and circumstances with Banjercito.
- [ ] For an RV, motorhome, trailer, ATV or UTV, request a specific review of each unit before buying coverage.
- [ ] Save the insurance certificate and assistance contacts offline, and carry a printed backup.

DURING YOUR STAY AND RETURN

- [ ] Set reminders before each expiry. If your return changes, ask about coverage options before your current policy expires.
- [ ] Ask your home insurer how to maintain vehicle coverage in your home country while you are in Mexico.
- [ ] If you obtained a temporary vehicle permit, confirm the applicable return and closing procedure with Banjercito. Keep receipts.
- [ ] For claims, use the contacts printed on your policy. For an emergency in Mexico, call 911.

Policy number: _____ Emergency contact: _____

Preparation aid; keep your policy and official travel documents separately.
